

KMDL REPORT – 1 Month mobile services 20. Feb 2024

We are commemorating one month anniversary since beginning KMDL outreach services. We thank God for walking with us.

Reflecting back:

1. What was our most challenging moments?

- A. Going to a school for demos only to find the kit was not charging.
- B. Ready to start grade 2 English class using Msingi, only to find that it was not functioning.

2. The most fulfilling moments:

- a. Walking along classes after classes and noting that everyone is digitally engaged using Wilearn tools.
- B. Realizing that we are revolutionizing education in this remote area.
- C. Receiving requests for complementary information resources from teachers and being able to deliver.
- D. Witnessing learners enjoying classes using Wilearn digital tools and resources.
- E. Having Mr. Victor Malombe who is always tirelessly ready to support and answer questions. Long live Wilearn and your able team.

Recommendations:

- 1. Have alternative content for subjects not opening in Msingi. I have put together my own alternative which I want to share with Victor to make a complementary module as we wait for Msingi new edition.
- 2. Put together nursery/pre-paratory content which is not captured by Msingi (I have plenty of those contents that I would recommend we make a module of it.
- 3. Share likely hiccups in the kit and how to troubleshoot them
- 4. Acquire secondary level content from Msingi.

Thank you.

Sam Mbogo
